ELECTRICAL TIMING DEVICE MAY RECORD FAIR GROUND RACES

electrical timing device which records time on a paper tape in one-hundreths of seconds may be brought to Phoenix to click the big world's championship 100-mile dirt track race which will be held at the fair grounds track on Sunday, October 10.

So anxious are the A. A. A. officlais that Phoenix be credited with the new world's record which the experts declare will be hung up when Chevrolet. Tort and Milton meet, that George Purdy Bullard noted as the iggest American Automobile association racing official in the entire west and William Pickens, promoter of the imprinate is officials for terms for the device to be sent here.

The present record made at the state beir grounds is 59 minutes and 19 seconds for the 100 miles and Mr. Perkins is confident this record will be low-ered. It may be lowered a few seconds and it may be a few minutes necessitating an accurate timing device to sheek the time on each driver.

Omar Toft circled the track in less than 50 seconds with a local car and the special racer he will drive October 10 will circle the grounds much faster than a local stock car. The old speed mill should turn out some fast driving giving auto fanciers thrills and a passing view of real speed

For business administration elect Stoddard senator.

IGNORE LOCAL GOVT. BOARD DUBLIN, Sept. 28 .- A few months ago the Dublin corporation and the other local bodies in Ireland dominated by Sinn Fein passed resolutions delaring their adherence to Dall Eireann, the Republican parliament, as the rightful governing body in Ireland, and most of them decided to ignore the tocal government board, and also claims for malicious injuries decreed by the government has decided not to pay the usual "grants in aid," and the "bounty in lieu of rates" on government buildlngs. In the case of Dublin, this sum, which includes contributions towards provision for school children's meals, maternity, and child welfare, treatment tuberculosis at the Pigeon House and in a large sanatorium outside at Crooksiing, and provision for lunatics at the Portrane and Richmond asylums, amounts to over \$1,000,009.

The Estates and Finance committee has issued a statement, from which it appears that as a result of the stopplug of the grants certain of these serares will have to be suspended, including the meals for school children, and that the Pigeon House and Crooksling establishments will have to be closed, "A determined effort,' it says, "will be made to keep on R.chmond and Fortrane asylums, but it is very doubtful whether such effort will be

in view of the very grave position that has arisen the Corporation pro-poses to ask all its employes to forego 25 per cent of their salares and wages in the next six months-to be refunded in the first-half of the next lifancial year. There is great indignation among the employes at this suggestion, and it is stated they will refuse to agree.

Alderman William Cosgrave, chairman of the estates and finance com-mittee, interviewed about the action of the government, declares that it and its advisers are embezzling the moneys of the citizens, "These mones," he says, "have been raised through taxation in Ireland, and are payable to the corporation."

BERLIN, Sept. 28, 1920.—It 28 learned from a private source in East Prussia that the bolsheviks are thinking of declaring naval war on the allies as an answer to the threatened blockade. The war would be carried out by subma-

. German naval experts hold that the scheme is absurd. They doubt if submarines in sufficient number could have been built in Russian shipyards without being known to the allies. "We have seen that it is impossible to cause any serious damage to England with Submarine fleet numbering less than said one of the most notorious

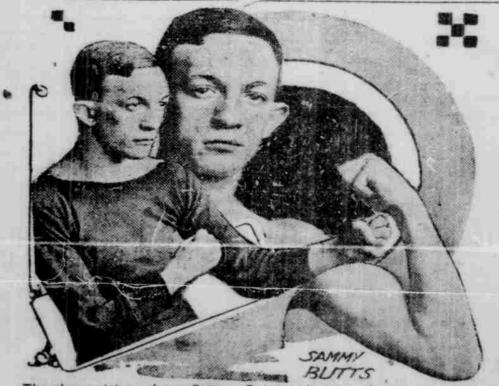

U-boat commanders. Some German officials regard the report as Polish propaganda, meant to get Germany into trouble with the alas the only yards where boats could be built in numbers are in German ports. It is officially denied that any German U-boats have been sold
